

Prostock Complimentary Services

Fabrication Assistance

Sometimes you know just what you need. How to order it, fabricate it, install it and then reap the benefits along with your customer. Sometimes you don't. Especially if you're new to daylighting with polycarbonates. Each project is different. When you need expert help to achieve your goals in aesthetics, economy and performance, that's when Prostock's fabrication assistance comes into play. Right from the beginning so you avoid missteps.

Fabrication assistance is complimentary for your project. There's no charge for you to take advantage of our expertise. First time Prostock customers may require some input from our fabrication personnel. Polycarbonate reacts differently than glass. There are simple tricks that will take your project from good to great. Seasoned Prostock dealers will know the steps necessary to create a quality outcome. In any case, please keep in mind that this service is limited in its scope. The intent of Prostock is truly "do-it-yourself", but we recognize that first time Prostock customers may need fabrication assistance.

If you don't know polycarbonate, you need to know Prostock customer service team. Call us to discuss any of these services at 734-207-9700
