

## Prostock Complimentary Services

### System Selection

Sometimes you know just what you need. How to order it, fabricate it, install it and then reap the benefits along with your customer. Sometimes you don't. Especially if you're new to daylighting with polycarbonates. Each project is different. When you need expert help to achieve your goals in aesthetics, economy and performance, that's when Duo-Gard's Design Team comes into play. Right from the beginning so you avoid missteps.

We'll discuss all the possibilities and help you select the best system for your project. After all, we've "been there – done that" for 30 years. All as an international innovator in translucent polycarbonate technology.

Prostock offers a variety of standard system assemblies. Each has its benefits and each can be used for a variety of solutions. The Prostock customer service team can help you decide which system is best suited for your project. Once you have had the opportunity to study and install any or all of the various systems, future system selection will become second nature.

Assistance on system selection is complimentary for your project. There's no charge for you to take advantage of our expertise. We want to make sure you get the system solution you need and the knowledge to use it effectively for your customer.

If you don't know polycarbonate, you need to know Prostock customer service team. Call us to discuss any of these services at 734-207-9700.
